DISCLOSURE TITLE: On-Line Help Reviewer Facility

PUBLICATION-DATA: IBM Technical Disclosure Bulletin, March 1994, US

VOLUME NUMBER: 37

ISSUE NUMBER: 3

PAGE NUMBER: 187 - 188

PUBLICATION-DATE: March 1, 1994 (19940301)

CROSS REFERENCE: 0018-8689-37-3-187

DISCLOSURE TEXT:

A technique is provided to enable systematic review of on-line helps, allowing reviewers to both see the product window or screen corresponding to the help being viewed, as well as to add any comments about the help panel.

- This on-line help reviewer presents each help panel, one panel at a time, in a systematic order. As the user is reading a help panel, he or she has the option of selecting a "Show Window" function to see the window or dialog box that the help panel is referring to.

Reviewers also have the option of selecting a "Comment" function, allowing them to enter any comments about the help panel being viewed on-line.

- The comments made by the reviewers are automatically compiled so the author of the helps can read all of the comments from one location. Then, when performing a group review of all of the users' comments, the comments from all the reviewers can be

displayed by
selecting "Comments" and the corresponding window or
dialog box can
also be displayed.
